Extended Bio

Prior to co-founding Mobius Intelligent Systems, Bob owned and operated a California based web development firm, and a national executive recruiting firm based in Chicago, IL.

His professional career includes more than two decades of hands-on management and technology consulting experience with organizations ranging from start-ups to Fortune 500 companies.

Bob has served as a non-partisan elected public official in El Dorado County, CA and as State Co-chair for California Recycles Day. He has served on the boards or advisory boards of the California Resource Recovery Association, the U.S. Zero Waste Business Council, the National Recycling Coalition, Rock the Earth, Positive Legacy, US Green Building Council Zero Waste Advisory Committee, and the Boys and Girls Clubs of Chicago.

Bob is the recipient of the Keep America Beautiful Innovation Award, Keep California Beautiful Volunteer of the Year Award, The California Resource Recovery Association Annual Service Award, the California Product Stewardship Council Outstanding Partner Award, Multiple Carlson Gold Consultant Awards, and has been a member of numerous award winning teams working in collaboration with non-profits, public agencies, and private industry partners.

He has presented on subjects related to business, technology, and the environment on behalf of numerous organizations throughout the United States including the National Recycling Coalition, US Zero Waste Business Council, and the US EPA Science and Technology Council.
